

Next, How to make FURNITURE POLISH:

FURNITURE POLISH

1/2 teaspoon oil, such as olive (or jojoba, a liquid wax)

1/4 cup vinegar or fresh lemon juice

Mix the ingredients in a glass jar. Dab a soft rag into the solution and wipe onto wood surfaces. Cover the glass jar and store indefinitely.

Next, How to make VINEGAR DEODORIZER:

VINEGAR DEODORIZER

Keep a clean spray bottle filled with straight 5 percent vinegar in your kitchen near your cutting board and in your bathroom and use them for cleaning. I often spray the vinegar on our cutting board before going to bed at night, and don't even rinse but let it set overnight. The smell of vinegar dissipates within a few hours. Straight vinegar is also great for cleaning the toilet rim. Just spray it on and wipe off.

Next, How to make MOLD KILLERS:

Tea Tree Treasure

2 teaspoons tea tree oil
2 cups water

MOLD KILLERS

Tea Tree Treasure

Nothing natural works for mold and mildew as well as this spray. I've used it successfully on a moldy ceiling from a leaking roof, on a musty bureau, a musty rug, and a moldy shower curtain. Tea tree oil is expensive, but a little goes a very long way. Note that the smell of tea tree oil is very strong, but it will dissipate in a few days.

Combine in a spray bottle, shake to blend, and spray on problem areas. Do not rinse. Makes two cups.

Vinegar Spray

Straight vinegar reportedly kills 82 percent of mold. Pour some white distilled vinegar straight into a spray bottle, spray on the moldy area, and let set without rinsing if you can put up with the smell. It will dissipate in a few hours.

Make a Reusable Shopping Bag from an Old T-Shirt

This bag is simple to make:

Sew the very bottom of the t-shirt together, then cut off the sleeves, and cut around the neckline. I'm already thinking up ways to fancy this up (reinforcing the top and using ribbon trim and handles, etc). [Visit Martha's link to watch a video and get step by step directions.](#) This project is simple, so even my youngsters can make these with minimal help- the bags make wonderful sleepover packs. (Pssst... you can also make [pillowcases](#).)

These are just a few helpful hints and tips to keep our planet green and clean! Have fun, stay safe and start to **PRRREP** your way to a greener environment. 😊
