

Thank You to everyone that participated in the Wish Angel Project.  
If you ever wondered if the Angels make a difference I included a note from the coordinator at health region:

*Re: Christmas Wish Angels*

*By the looks of the weather out my window the holiday season is now once again upon us. As we sit and watch the changes outside it's hard to believe yet another year has come and gone! Here we are once again upon the Season that sees many people in need of the warmth and sharing that many take for granted. We have been gratefully remembered by your group of wonderful people once again. Thank you very much for your generous acts of kindness and gifts in remembering the residents of Herb Bassett Home during the holiday season. This generous gift for 30 residents truly provides a bright spot for the many residents who have no family or no funds available to shop on their own.*

*Having gifts to open on Christmas morning is the highlight of the day for these residents. Seeing their eyes light up at an unexpected gift is a reward in itself. We hope that each and every one of you feels in your hearts the warmth that your dedication has brought to our Home.*

*Your kindness, thoughtfulness and generosity truly does make a difference in these Residents' lives.*

*Again, thank you.*
